SPRINGLESS LAUNDRY PEG / SINGLE CLIP

Nominal STL envelope: 50.0 × 59.6 × 12.2 mm / print at 100% scale

DIMENSIONED VIEWS / mm

3D / ORIGINAL STL

VARIANT + USE

One-piece household peg with a flexible spring section. Squeeze the handles, position the jaws over fabric and release gently. No separate spring or assembly.

Light household use; no load or clamping-force rating.

PRINT ESTIMATES

PLA: 23 min / 9 g
PETG: 22 min / 8 g

One printed item.

A1 mini / 0.2 mm layers / 3 walls / 15% infill (PLA); PETG profile: 2 walls.

Views not to scale. Dimensions measured from STL; estimates from MakerWorld profiles, checked 23 Oct 2026.
Time rounded up to minutes. Actual print time, material use and fit vary. No measured flow rate is specified.

SPRINGLESS LAUNDRY PEG

PRINT / INSTALL / USE / CARE

01 / PRINT

Use the supplied single-clip profile or the local 12-piece plate. Keep the supplied orientation and 100% scale.

02 / INSPECT

Remove loose material. Check the flexible spring and jaws for cracks, poor layer bonding or sharp edges.

03 / CLIP

Squeeze the handles gently, place the fabric between the jaws and release. Avoid forcing thick bundles into the clip.

04 / CARE

Release by squeezing the handles. Replace a clip that remains bent or has cracked. Keep PLA away from heat.

PLA: indoor, light household use. PETG is the recommended option for outdoor use in the listing. Neither material has a stated UV-life or clamping-force rating. Not for heavy loads or safety use.
